

The Colorado Center for Medical Laboratory Science

Denver, Colorado

Dear Applicant:

We are pleased that you have chosen to submit an application to our medical laboratory science program. The Admissions Committee would like to pass on some details of importance. Begin the process by reviewing the **Minimum Application Requirements** to determine if you meet each of the requirements for admission consideration. An applicant's eligibility for admission and qualification for formal interview cannot be officially determined until all application materials are on file in the Office of Admissions.

Applicants must submit:

1. the completed **Application for Admission** including the **\$50.00 application fee** to cover the processing and evaluation of the application.
2. three reference **Applicant Evaluation Forms** from appropriate individuals mailed **DIRECTLY** to the Office of Admissions (a faxed copy will be accepted in cases where receipt of evaluations must be expedited; the original signed copy should be submitted to the Office of Admissions by mail).
3. **official transcript(s)** from all U.S. colleges/universities attended. The transcript(s) must be sent **DIRECTLY** to the Office of Admissions by each institution.
4. **official transcript(s)** from all foreign colleges/universities attended. The foreign transcript must be sent **DIRECTLY** to the Office of Admissions. Foreign transcripts must also be evaluated by a U.S. foreign transcript evaluation service. The foreign transcript evaluation must be sent **DIRECTLY** to the Office of Admissions.
5. ESL students must take the TOEFL test and have results sent **DIRECTLY** to the Office of Admissions.
6. **Verification of Degree Status Form**

Space in the curriculum is limited, and positions are awarded through a competitive application process. Applications are accepted year-round but **students are strongly encouraged to begin the application process at least one year prior to the August start date.**

It is the policy of The Colorado Center For Medical Laboratory Science to provide equal educational opportunity to all applicants without regard to race, religion, color, national origin, sex, age, non-disqualifying handicap or veteran status.

The program reserves the right to revise information, requirements, regulation or financial charges at any time.
